EXTRAS		

## FRAME TECHNOLOGY

At the heart of this aero-sculpted beauty is an Advanced-grade composite frame with endurance-geometry for increased control and comfort. Performance features like the PowerCore bottom bracket for optimal pedaling stiffness are blended with road-smoothing features including a longer wheelbase and taller head tube. It's the best of both worlds.

## KEY UPGRADES (OVER DEFY ADVANCED 3)

- Complete Shimano 105 10-speed drivetrain
- Fi'zi:k Aliante Delta saddle
- DT Swiss Tricon R1800 wheelset

\*Seat angle is actual

\*\*Toptube is measured from the center of the headtube horizontally back to the top of the effective extension of the seattube

\*\*\*Standover height is based on the largest size tire that will fit the bike, not necessarily the included size tire
